Children's Cancer Hospital - Egypt (CCHE-57357)
In Collaboration with
Neurosurgery Department - Kasr Al Aini School of Medicine
Egyptian Society of Neurological Surgeons (ESNS)
& World's Federation of Neurosurgical Societies (WFNS)

February 25th-26th, 2016

Children Cancer Hospital 57357 - Egypt.

RECENT ADVANCES IN

PEDIATRIC NEUROSURGICAL ONCOLOGY

WELCOME MESSAGE

Dear Colleagues,

It is our pleasure and honor to welcome you at the Children's Cancer Hospital, Egypt (57357) in our annual Neurosurgery meeting which will be focusing on the Recent Advances in Surgical Management of Pediatric Brain Tumors.

The meeting will be hosting different key international speakers known for their great experience in the field of Neurosurgery from different continents; North America, Canada, Europe, Asia and Africa.

We are looking forward for your active participation and support to have a very unique and spectacular scientific program with ample opportunity for interactive discussion.

Cairo, the capital of Egypt and the largest city in Middle-East, was founded in 969 CE. Located near the Nile Delta is an attractive City to host such an outstanding event that gather all Neurosurgeons interested in the field of Pediatric Neuro-oncology.

The children's Cancer hospital of Egypt is playing a very important and leading role in improving the care of patients with brain and spinal cord tumors in the middle east and is becoming one of the largest pediatric cancer centers in the world.

We Look forward to your attendance and Collaboration, which will add to the quality of the program and support the exchange of ideas.

President of the Conference
Prof. Dr. Mohamed A. El Beltagy
Head of Neurosurgery Unit, (CCHC-57357)

We are honored to welcome you at the Children's Cancer Hospital Egypt 57357, the largest free standing pediatric oncology hospital in the world. The Hospital is 320 bed capacity. CCHC 57357 is a unique humanitarian project that was built by-and is completely reliant on donations and contributions.

We began operating in July of 2007. The 57357 Institution's vision is to become a worldwide icon of change towards a cancer-free childhood, the CCHC is regarded as a leading center of excellence in Egypt, Africa and in the Arab Region, recording an over-all survival rate of 73.7%. It is also becoming the major treatment center for childhood central nervous system tumors throughout the region because of a professional, highly trained, and passionate neuro-oncology team and its acquisition of cutting-edge technology in care delivery including intra-operative MRI, latest generation of radiotherapy Linacs, and future acquirement of Proton therapy.

The CCHC mandate is to become a leader in a new system of scientific research practice in the region through collaborations with other institutions. We have launched a joint initiative fellowship program with Dana Farber Cancer Institute and Boston Children's Hospital in pediatric oncology and neuro-surgery.

We are privileged and enthusiastic to host this prominent scientific gathering today to exchange knowledge and advance the state of care and research in Pediatric Neurosurgical oncology not only in the region but also on a global level.

Thank you.
